

## **SPC COVID -19 Communication**

### **5/1/20**

Welcome to the end of another week. As you know, the governor of North Carolina has begun laying out a plan to reopen the state. This plan will be based partly on the reduction of new cases of the virus. We want to remind you that we must all do our part to prevent additional infections. Continue to practice all the measures that have been recommended by the CDC and other health organizations including social distancing and practicing good hygiene.

We are very aware of the challenges most of you face in trying to protect yourself while working on jobsites and commend you for your efforts thus far. We will continue to monitor and adjust our measures for the prevention of the spread of coronavirus.

These times continue to challenge all of us but hang in there! The reopening process appears to be right around the corner. Just in time for warmer weather and perhaps the opportunity to go to the barber shop/beauty salon. It has been a grind but stay vigilant. We are all in this together. We are all counting on you. Have a great weekend. Remain Cautious, Stay Safe.
