

## **SPC Monthly Message #12**

**7-31-20**

NEWS FLASH!

### **SPC Mechanical is ENR Southeast's 2020 Specialty Contractor of the Year.**

This is a **very** big deal. It is based on several factors including revenue growth, performance, safety and others. This award says a lot about our company achievements and is great advertising for us. All of you contributed to this recognition and we thank you! Congratulations to Floyd McCabe for his efforts in pursuing this recognition.

As I write this, Tropical Storm Isaias is making its way towards the east coast of Florida with a possible track over the Outer Banks. This is a reminder we are in hurricane season so please make sure you and your family are prepared for a serious storm.

The new headquarters building is progressing nicely with a portion of the basement retaining wall poured and the first slab on grad pour scheduled for next week. Things are about to get really busy there. You can check out some progress photos that Casey Wiltgen posted on the SPC Mechanical Facebook page.

Speaking of Casey, our social media specialist. We have seen a 24% increase in followers on our LinkedIn page in the last month alone. This means lots of new people are learning about us which could lead to a new project or a new team member. Well done Casey!

I hope you have a good month. Stay safe.
